Dear Rose.

I am dropping you a line as I don't seem to get time to come down & see you at the moment. I like my new job very much indeed - the work is quite different and at present I am reading cases & trying to get the hang of things.

It is a small section under a D.D. (Teakle - do you remember him?) and deals with Administration & Policy of Disposal - my particular 'baby' will be overseas disposals. There are 4 of us in the room - Sank who is a Principal, myself & 2 girl T.As who both seem very nice. I like Sank very much & he is very good at explaining things.

Sorby Weaver (Paire) is in the room opposite & Stephenson next to her & then Mc Bain, so it is not completely strange. The Great Man is greater than ever!

I am in a complete turmoil inside about this repatriation. Despite all warnings to myself I am absolutely banking on it and certainly he should be with this lot as he has passed the board. I suppose I shall not have very much longer to wait before I receive official notification, but I have never known the time go so slowly! If they sail on Sunday I suppose I shall be going up to Scotland to see him about Tues. or Wed. (I don't know how long the voyage from Sweden takes) we shall go to his mother's in Camornie if he is given leave right away, which is the case with all Cases who are able to travel.

Isn't it cold? I'm still on the Northside!

Love from Lou.
