MTB 764.

London.

Dear Les.

Please excuse us for not having sent in your gear for such a long time. But some of it I sent to the Laundry to be cleaned and there was a bit of a hitch and we are just only getting it back now. Your hammock has been packed up for quite a few days and dried out in the sun - shop.

Very pleased to hear that you are alright in the old sound box. Hope you continue so.

We have had no care as yet and are all

pretty check.

You seem pretty keen
on the foreign stunt. Hope that
you don't go too far.

Please send my
regards to the trouble and strife.

We called at Hamet
but only for a few hours and
to be honest there was no
time to remember anything but
I shall put your gear ashore
here and get it sent per
parcel. The hamper first then
the rest of the effects to follow
when they are all collected.

Wishing you a happy
Christmas and an English New

Year
Yours
T. S.
