

Dear Les

I am sorry I  
could not see you  
before I left, I should  
have liked to very  
much, but it appears  
that they are going  
to keep me in this  
country on a base job,  
they only decided about  
it this morning and  
I got a draft tonight  
to Helinstone base staff.

Went about my  
"Interim" leave this  
morning, and after  
meeting between Hayden  
and the Commander,  
Hayden asked me if  
I was fit for sea

I told <sup>you</sup> no, you know  
why, and after that  
he said he would  
find me a bare job,  
so you can see how  
it all worked out,

If you will  
I should like you  
to write to my wife  
and let her have  
your home address, so  
she can pass it on  
to me, and then I  
can keep in touch  
with you. I will  
write you from Tebiastan  
and hope you get it  
before you go on draft.

Cheers for Now

Your old Pal
