

UNITED STATES AIR FORCE

May 11 -

Dear Clare

Made 2 or 3 attempts to reach you by phone this morning, but to no avail. Apparently the G. P. O. personnel are still celebrating V day -

When I returned to camp, I found things in rather a state of turmoil, as I suspected I would find them. The exigencies of the situation are such that the party which had previously been planned for tomorrow night was called off - We were all rather keenly disappointed and I in particular had been looking forward to passing a few pleasant hours with you again. However, - C'est la guerre, and we are but pawns on the chessboard.

V day in Piccadilly was certainly
a most memorable occasion
for me, and one which will
ever linger in my memory.
I think I spent it as nicely
as ever I would have cared to.

Don't know what the future
holds in store for us — but
I for one, & all of us, intend to
make the most of any opportunity
which is offered us. I think
I'll manage to scrape up
some fun, regardless of how
trying an ordeal it may prove
to be. Whether I find myself
sharing an upholstered facha
with a streamlined 'demerselle
and a bottle of Cognac — or
whether it will consist of sipping
lager beer in a Branham's
evening after evening —
I shall manage.

Sincerely hope you continue
to remain "in the pink" and your
cheerful self — Joe' + Dot wish
to be remembered. Cherish
Joe
