Sweetheart

Went out to Bell Flex yesterday afternoon to do a spot of business, & at the same time had a great paint around the shops. Nicky situated that building & I'd rather like to work here in place of G.W.H. Remember how you spent a few weeks making that enquiry at Bell Flex?

There is a photographic shop at the entrance to the bldg. & seeing several cameras on show I popped inside. Imagine my disappointment when told that they'd had 3 Retina I's on Monday & sold 'em all - price £21, £21.10.0 & £22! What a cell. I am determined to keep trying these places - our luck is bound to come up. As to new ones - he told me they were made in Germany & they do not expect any new ones for some time.

Vera phoned me yesterday & I promised to go to Cufley Lancers this evening. She said they'd heard from you & you sounded very cheery & bright. Tolly good oh!

I meant to sit down & write last evening but there were so many other jobs to do - that I felt too tired to pen anything worth reading. I am wondering whether the photo's have arrived & what you think of 'em. They are not the glamour stuff that you get in the 'Lane', 'Sally' & 'Dumb Blonde' columns & you may be a trifle disappointed.

I wonder if you will be going into town this weekend. I do hope so, darling, what there is a Betty Grable or similar epic on show. How goes the packing? Do you want me to send you any more cash? There's still a little left in the bank (never trust these wives with blank cheques - they only start indulging in fur coats & things).
 Actually I am gonna replace J6 today, but the same time inquire after that draft to Bombay.

More later, Sugar-plum.

Keep yourself in the pink for that home-coming.

Love you

Clare
